No.F.3(2)/LOOP/2025/

Dated: 13th February, 2025

Respected Lt. Governor Sir,

I would like to draw your kind intervention towards two prominent issues relating to Health Department, Govt. of NCT of Delhi and swift implementation of these systems in Delhi are necessitated for improving public health care system.

1. Pradhan Mantri – Ayushman Bharat Health Infrastructure Mission (PM-ABHIM)

Pradhan Mantri – Ayushman Bharat Health Infrastructure Mission (PM-ABHIM) was launched in 2021 by Govt. of India with the objective of filling critical gaps in health infrastructure, surveillance and health research – spanning both rural and urban areas. Under the Mission, the Govt. of India has approved a resource envelope of Rs.2406 crores for Govt. of NCT of Delhi and includes 3 major components.

- (i) Urban Health and Wellness Centres
- (ii) District Integrated Public Health Labs
- (iii) Critical Care Blocks

The resource envelope approved for Delhi for 5 years from 2021-22 to 2025-26 is as below:

Sl. No.	CSS Component	No. of Units approved for the state	Amount sanctioned under PM – Ayushman Bharat Health Infrastructure Mission (in Rs Crores)			
			Central Share	State Share	15 th FC Share	Total
1.	Urban Health and Wellness Centres	1139	1235.25	823.5	-	2058.75
2.	District Integrated Public Health Labs	11	12.96	8.64	-	21.6

3.	Critical Blocks	Care	9	195.85	130.57	-	326.42
3a	100 Critical Blocks in District Hospital*	Bedded Care	4	124.6	83.07	-	207.67
3b	50 Critical Blocks **	Bedded Care	5	71.25	47.5	-	118.75
Grant Total Financial Outlay in Delhi				1444.06	962.71	-	2406.77

*In district with population >20 lakhs

** without HR support

The PM – ABHIM is being implemented in all states / UTs across the country except NCT of Delhi. Implementation of such an important initiative in Delhi not only boost the public health care system of Delhi but also give impetus to the held up health infrastructure projects facing huge resources crunch.

2. Health Information Management System:

In the time of digital world, digital health solutions are vital to ensure that health care services are provided equitably, transparently and efficiently. With this vision of digitizing health care process, ensuring better tracking of patent records, streamlining hospital management, preventing pilferage of public funds and enhancing of overall health infrastructure, implementation of Health Information Management System (HIMS) in hospitals has been stressed upon by Govt. of India. However, due to reasons best known to previous AAP ruled government, the digital system could not be rolled out in Delhi till date. In this regard, NIC application “e-Hospital / Next Gen Hospital” is available for this purpose and successfully being used at Hospitals like Dr. RML Hospital, Safdarjung Hospital and approximately 738 Hospitals / Health Care facilities across the country. Moreover the application is available free of cost without any upfront costing involved.

The Hon'ble High Court has been vocal in recent past on poor performance of health facilities in Delhi, the implementation of these above schemes in Delhi can give relief to the general public struggling for proper health facilities.

Both these schemes were not implemented by the previous AAP ruled government in Delhi due to prejudice mindset against Union Government sponsored schemes and largely engagement in corrupt practices which have derailed the health infrastructure of the City. The Central Government had made persistent efforts to implement these schemes in Delhi but the same were stalled by the AAP leadership. On the other hand the Union Government is committed to provide better health facilities and other basic amenities to the citizen across the country and the same are being availed by other states and UTs except Delhi.

In view of above, I would request your good-self to consider and issue directives to concerned department for swift implementation of both these schemes in Delhi so that the city's health system is strengthened and the citizens may receive the benefits of a robust and accessible health care framework.

Warm regards,

Yours sincerely,

(Vijender Gupta)
